HealthSouth Corporation Announces Plans to Offer Convertible Perpetual Preferred Stock

PRNewswire-FirstCall BIRMINGHAM, Ala.

HealthSouth Corporation (OTC Pink Sheets: HLSH) announced today that it plans to issue up to \$300 million of convertible perpetual preferred stock through an offering to qualified institutional buyers pursuant to a private placement exemption under the Securities Act of 1933. This preferred stock will be convertible into HealthSouth common stock.

The purpose of the preferred stock issuance is to reduce HealthSouth's outstanding indebtedness. If HealthSouth successfully completes its previously announced recapitalization transactions, the amount of senior unsecured interim term loans HealthSouth will be permitted to borrow in connection with the recapitalization transactions will be reduced by the amount of gross proceeds that HealthSouth receives from the preferred stock issuance. If the recapitalization transactions are not completed, HealthSouth will use the net proceeds that it receives from the preferred stock issuance to repay a portion of its outstanding senior unsecured indebtedness.

The issuance of the preferred stock will be subject to market conditions and other conditions and there can be no assurance that the issuance will be consummated.

The convertible perpetual preferred stock and the underlying common stock issuable upon conversion have not been registered under the Securities Act of 1933 and may not be offered or sold in the United States absent registration or an applicable exemption from registration requirements. This news release does not constitute an offer to sell, or solicitation of an offer to buy, any security and shall not constitute an offer, solicitation or sale in any jurisdiction in which such offering would be unlawful.
