BIRMINGHAM, Ala., May 26, 2017 /PRNewswire/ -- HealthSouth Corporation (NYSE:HLS) today announced it has given notice of its intent to redeem all remaining outstanding 2.00% Convertible Senior Subordinated Notes due 2043 (the "Notes") amounting to an aggregate principal amount of approximately \$320 million. The redemption date will be June 26, 2017. HealthSouth expects to fund the redemption using available cash and borrowings under its revolving credit facility.

The redemption price is equal to \$1,000 per \$1,000 principal amount of the Notes plus accrued and unpaid interest to, but excluding, the redemption date. The make-whole premium will be based on HealthSouth stock prices preceding the conversion date and calculated in accordance with the terms of the indenture for the Notes. In the event any holder delivers a conversion notice as provided in the indenture, HealthSouth intends to satisfy its conversion obligation with respect to each \$1,000 principal amount of Notes tendered by delivering shares of its common stock. Holders who wish to convert their Notes must deliver a conversion notice in the form found on the back of each Note before the deadline and comply with the other procedures in the indenture.

Note Regarding Presentation of Non-GAAP Financial Measures

The financial guidance contained in this press release includes non-GAAP financial measures, adjusted earnings per share and Adjusted EBITDA.

Excluding net operating revenues, HealthSouth does not provide guidance on a GAAP basis because it is unable to predict, with reasonable certainty, the future impact of items that are deemed to be non-indicative of its ongoing operations. Such items include government, class action, and related settlements, professional fees-accounting, tax, and legal, mark-to-market adjustments for stock appreciation rights, gains or losses related to hedging instruments, loss on early extinguishment of debt, adjustments to its income tax provision (such as valuation allowance adjustments and settlements of income tax claims), items related to corporate and facility restructurings, and certain other items the Company believes to be non-indicative of its ongoing operations. These items are uncertain and will depend on several factors, including industry and market conditions, and could be material to the Company's results computed in accordance with GAAP.

However, the following reasonably estimable GAAP measures for 2017 would be included in the reconciliation for Adjusted EBITDA:

- Provision for doubtful accounts - estimate of 1.8% to 2.0% of net operating revenues
- Interest expense and amortization of debt discounts and fees - estimate of \$165 million to \$175 million
- Amortization of debt-related items - approximately \$15 million
