Such items include government, class action, and related settlements; professional fees—accounting, tax, and legal; mark-to-market adjustments for stock appreciation rights; gains or losses related to hedging instruments; loss on early extinguishment of debt; adjustments to its income tax provision (such as valuation allowance adjustments and settlements of income tax claims); items related to corporate and facility restructurings; and certain other items the Company believes to be not indicative of its ongoing operations. These items cannot be reasonably predicted and will depend on several factors, including industry and market conditions, and could be material to the Company's results computed in accordance with GAAP.

However, the following reasonably estimable GAAP measures for 2023 would be included in a reconciliation for Adjusted EBITDA if the other reconciling GAAP measures could be reasonably predicted:

- Interest expense and amortization of debt discounts and fees estimate of \$145 million to \$155 million
- Amortization of debt-related items approximately \$10 million

Statements contained in this press release and the supplemental information which are not historical facts, such as those relating to the business model, strategy, outlook and guidance, dividend strategies, effective income tax rates, labor cost trends, legislative and regulatory developments or their impacts, financial guidance, ability to return value to shareholders, projected capital expenditures, acquisition opportunities, development projects, other balance sheet and cash flow plans, are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. In addition, Encompass Health, through its senior management, may from time to time make forward-looking public statements concerning the matters described herein. All such estimates, projections, and forward-looking information speak only as of the date hereof, and Encompass Health undertakes no duty to publicly update or revise such forward-looking information, whether as a result of new information, future events, or otherwise. Such forward-looking statements are necessarily estimates based upon current information and involve a number of risks and uncertainties. Actual events or results may differ materially from those anticipated in these forward-looking statements as a result of a variety of factors. While it is impossible to identify all such factors, factors which could cause actual events or results to differ materially from those estimated by Encompass Health include, but are not limited to, an infectious disease outbreak, including the speed, depth, geographic reach and duration of its spread, which could decrease our patient volumes and revenues and lead to staffing and supply shortages and associated cost increases; the legal, regulatory and administrative developments that occur at the federal, state and local levels; Encompass Health's infectious disease prevention and control efforts; the demand for Encompass Health's services, including based on any downturns in the economy, consumer confidence, or the capital markets; the price of Encompass Health's common stock as it affects Encompass Health's willingness and ability to repurchase shares and the financial and accounting effects of any repurchases; any adverse outcome of various lawsuits, claims, and legal or regulatory proceedings involving Encompass Health, including any matters related to yet undiscovered issues, if any, in acquired operations; Encompass Health's ability to attract and retain key management personnel; any adverse effects on Encompass Health's stock price resulting from the integration of acquired operations; potential disruptions, breaches, or other incidents affecting the proper operation, availability, or security of Encompass Health's or its vendors' or partners' information systems, including unauthorized access to or theft of patient, business associate, or other sensitive information or inability to provide patient care because of system unavailability as well as unforeseen issues, if any, related to integration of acquired systems; the ability to successfully integrate acquired operations, including realization of anticipated tax benefits, revenues, and cost savings, minimizing the negative impact on margins arising from the changes in staffing and other operating practices, and avoidance of unforeseen exposure to liabilities; Encompass Health's ability to successfully complete and integrate de novo developments, acquisitions, investments, and joint ventures consistent with its growth strategy; Encompass Health's ability to realize construction cost savings from prefabrication of hospitals; increases in Medicare audit activity, including increased use of sampling and extrapolation, resulting in additional unpaid reimbursement claims and an increase in the backlog of appealed claims denials; changes, delays in (including in connection with resolution of Medicare payment reviews or appeals), or suspension of reimbursement for Encompass Health's services by governmental or private payors; changes in the regulation of the healthcare industry at either or both of the federal and state levels, including as part of national healthcare reform and deficit reduction and Encompass Health's ability to adapt operations to those changes; competitive pressures in the healthcare industry and Encompass Health's response thereto; Encompass Health's ability to obtain and retain favorable arrangements with third-party payors; Encompass Health's ability to control costs, particularly labor and employee benefit costs, including group medical expenses; adverse effects resulting from coverage determinations made by Medicare Administrative Contractors regarding its Medicare reimbursement claims and lengthening delays in Encompass Health's ability to recover improperly denied claims through the administrative appeals process on a timely basis; Encompass Health's ability to adapt to changes in the healthcare delivery system, including value-based purchasing and involvement in coordinated care initiatives or programs that may arise with its referral sources; Encompass Health's ability to attract and retain nurses, therapists, and other healthcare professionals in a highly competitive environment with often severe staffing shortages, which may be worsened by infectious disease outbreaks, and the impact on Encompass Health's labor expenses from potential union activity, staffing shortages, and competitive compensation practices; general conditions in the economy and capital markets, including any instability or uncertainty related to armed conflict or an act of terrorism, governmental impasse over approval of the United States federal budget, an increase in the debt ceiling, or an international sovereign debt crisis; the increase in the cost of, or the decrease in the availability of, necessary supplies, such as personal protective equipment; the increase in the costs of defending and insuring against alleged professional liability claims, and Encompass Health's ability to predict the estimated costs related to such claims; and other factors which may be identified from time to time in Encompass Health's SEC filings and other public announcements, including Encompass Health's Form 10-K for the year ended December 31, 2022 and Form 10-Q for the quarters ended March 31, 2022, June 30, 2022, and March 31, 2023, when filed.
