

Encompass Health reports results for fourth quarter 2020 and issues full-year 2021 guidance and longer term growth targets

BIRMINGHAM, Ala., Jan. 26, 2021 /PRNewswire/ -- Encompass Health Corporation (NYSE: EHC), a national leader in integrated healthcare, offering facility-based and home-based patient care through its network of inpatient rehabilitation hospitals, home health agencies and hospice agencies, today reported its results of operations for the fourth quarter ended December 31, 2020.

"We are pleased with our performance in 2020, which demonstrates the resiliency of our business model," said President and Chief Executive Officer of Encompass Health Mark Tarr. "Throughout the past year, we have continued to successfully meet the needs of our patients, employees and business partners. As we look ahead into 2021, we remain confident in our business and long-term prospects."

Consolidated results

	Q4 2020	Q4 2019	Growth	
			Dollars	Percent
	(In Millions, Except per Share Data)			
Net operating revenues	\$ 1,214.4	\$ 1,184.4	\$ 30.0	2.5 %
Income from continuing operations attributable to Encompass Health per diluted share	0.86	0.68	0.18	26.5 %
Adjusted earnings per share	0.93	0.85	0.08	9.4 %
Cash flows provided by operating activities	279.7	215.6	64.1	29.7 %
Adjusted EBITDA	239.9	238.2	1.7	0.7 %
Adjusted free cash flow	213.0	136.9	76.1	55.6 %
	Year Ended December 31,			
	2020	2019		
Cash flows provided by operating activities	\$ 704.7	\$ 635.3	69.4	10.9 %
Adjusted free cash flow	579.9	516.5	63.4	12.3 %

Revenue growth resulted from favorable pricing in the inpatient rehabilitation segment partially offset by decreased volumes in both segments and a pricing decrease in the home health and hospice segment.

The increase in income from continuing operations attributable to Encompass Health per diluted share and adjusted earnings per share in 2020 resulted primarily from decreased stock-based compensation resulting from the final exercise of the Home Health Holdings stock appreciation rights in the first quarter of 2020.

The increase in full-year cash flows provided by operating activities and adjusted free cash flow resulted primarily from a decrease in working capital and lower payments for cash taxes.

See attached supplemental information for calculations of non-GAAP measures and reconciliations to their most comparable GAAP measure.

	(In Millions)			
Adjusted EBITDA	\$ 218.0	\$ 225.1	\$ (7.1)	(3.2) %

- *Revenue* - Inpatient revenue growth resulted from favorable pricing partially offset by decreased volumes. New-store discharge growth of 0.9% resulted from a joint venture in Coralville, Iowa (June 2020) and wholly owned hospitals in Murrieta, California (February 2020) and Sioux Falls, South Dakota (June 2020). Discharge growth was impacted by limitations on elective procedures and capacity and staffing constraints at certain of the Company's hospitals. Growth in net patient revenue per discharge primarily resulted from a higher acuity patient mix, an increase in reimbursement rates and the suspension of sequestration.

The decrease in outpatient and other revenue resulted from the inclusion of \$2.5 million of business interruption insurance recoveries in the fourth quarter of 2019 related to Hurricane Michael, the COVID-related suspension of hospital-based outpatient services in 2020 and the closure of certain hospital-based outpatient programs in the fourth quarter of 2019.

Revenue reserves related to bad debt as a percent of revenue increased to 2.2% due to a \$4.5 million increase primarily related to prior denied claims.

- *Adjusted EBITDA* - The decrease in Adjusted EBITDA for the inpatient rehabilitation segment resulted primarily from increases in: bad debt expense, group medical expense, and use and cost of personal protective equipment.

Home health and hospice segment results

	(In Millions)			
Adjusted EBITDA	\$ 55.5	\$ 49.6	\$ 5.9	11.9 %

- *Revenue* - Home health volumes declined as a result of episodic admissions decreasing 27% from patients residing in senior living facilities, 36% from patients discharging from skilled nursing facilities, and 12% from patients receiving elective procedures in acute care hospitals. The combined impact of these declines represented a loss of approximately 3,900 admissions, or a 9% negative impact on the growth rate for the fourth quarter of 2020. During the fourth quarter of 2020, the Company averaged 360 home health employees per day on COVID-related quarantine, which further impacted its ability to accept referrals. Revenue per episode was impacted by the implementation of the Patient Driven Groupings Model ("PDGM"). Revenue per episode benefited from the suspension of sequestration.

Hospice same-store admissions growth of 16.1% yielded a 5.5% increase in hospice revenue. Hospice revenue growth was impacted by a decrease in length of stay resulting from a change in patient mix.

- *Adjusted EBITDA* - The 11.9% increase in Adjusted EBITDA primarily resulted from improved cost per visit supported by the clinician compensation model changes implemented in May 2020.

General and administrative expenses

	Q4 2020	% of Consolidated Revenue	Q4 2019	% of Consolidated Revenue
General and administrative expenses, excluding stock-based compensation	\$ 33.6	2.8%	\$ 36.5	3.1%

General and administrative expenses decreased as a percent of consolidated revenue due to lower costs associated with incentive compensation.

2021 guidance and longer term growth targets

The Company provided the following guidance for full-year 2021 and growth targets for 2020 through 2025.

Full-year 2021 guidance ranges

(in millions, except per share data)

Net operating revenues	\$5,000 to \$5,170
Adjusted EBITDA	\$925 to \$955
Adjusted earnings per share from continuing operations attributable to Encompass Health	\$3.31 to \$3.53

2020 through 2025 Growth Targets

Net operating revenues	8% to 10% CAGR
Adjusted EBITDA	8% to 10% CAGR
Adjusted free cash flow	5% to 7% CAGR

On December 9, 2020, the Company announced it is exploring strategic alternatives for its home health and hospice business. The review is ongoing, and no decision has been made. Accordingly, the Company's 2021 guidance and longer term growth targets assume the continuation of the current structure of the business. The guidance and growth targets may change depending on the ultimate outcome of the review.

Base year 2020 adjusted free cash flow benefited from a temporary payroll tax holiday. Exclusive of this item, the adjusted free cash flow CAGR target would be 8% to 10%.

For additional considerations regarding the Company's 2021 guidance ranges, see the supplemental information posted on the Company's website at <http://investor.encompasshealth.com>. See also the "Other Information" section below for an explanation of why the Company does not provide guidance for comparable GAAP measures for Adjusted EBITDA and adjusted earnings per share.

Other information

The information in this press release is summarized and should be read in conjunction with the Company's Annual Report on Form 10-K for the year ended December 31, 2020 (the "2020 Form 10-K"), when filed, as well as the Company's Current Report on Form 8-K filed on January 26, 2021 (the "Q4 Earnings Form 8-K"), to which this press release is attached as Exhibit 99.1. In addition, the Company will post supplemental information today on its website at <http://investor.encompasshealth.com> for reference during its January 27, 2021 earnings call.

The financial data contained in the press release and supplemental information include non-GAAP financial measures, including the Company's adjusted earnings per share, leverage ratio, Adjusted EBITDA, and adjusted free cash flow. Reconciliations to their most comparable GAAP measure, except with regard to non-GAAP guidance, are included below or in the Q4 Earnings Form 8-K. Readers are encouraged to review the "Note Regarding Presentation of Non-GAAP Financial Measures" included in the Q4 Earnings Form 8-K which provides further explanation and disclosure regarding the Company's use of these non-GAAP financial measures.

Excluding net operating revenues, the Company does not provide guidance on a GAAP basis because it is unable to predict, with reasonable certainty, the future impact of items that are deemed to be outside the control of the Company or otherwise non-indicative of its ongoing operating performance. Such items include government, class action, and related settlements; professional fees—accounting, tax, and legal; mark-to-market adjustments for stock appreciation rights; gains or losses related to hedging instruments; loss on early extinguishment of debt; adjustments to its income tax provision (such as valuation allowance adjustments and settlements of income tax claims); items related to corporate and facility restructurings; and certain other items the Company believes to be non-indicative of its ongoing operations. These items cannot be reasonably predicted and will depend on several factors, including industry and market conditions, and could be material to the Company's results computed in accordance with GAAP.

However, the following reasonably estimable GAAP measures for 2021 would be included in a reconciliation for Adjusted EBITDA if the other reconciling GAAP measures could be reasonably predicted:

- Interest expense and amortization of debt discounts and fees - estimate of \$164 million to \$174 million
- Amortization of debt-related items - approximately \$9 million

The Q4 Earnings Form 8-K and, when filed, the 2020 Form 10-K can be found on the Company's website at <http://investor.encompasshealth.com> and the SEC's website at www.sec.gov.

Statements contained in this press release and the supplemental information which are not historical facts, such as those relating to the nature of the COVID-19 pandemic and its impact on Encompass Health's business and financial assumptions, financial guidance, balance sheet and cash flow plans, are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. In addition, Encompass Health, through its senior management, may from time to time make forward-looking public statements concerning the matters described herein. All such estimates, projections, and forward-looking information speak only as of the date hereof, and Encompass Health undertakes no duty to publicly update or revise such forward-looking information, whether as a result of new information, future events, or otherwise. Such forward-looking statements are necessarily estimates based upon current information, involve a number of risks and uncertainties, and relate to, among other things, future events, Encompass Health's plan to repurchase its debt or equity securities, dividend strategies, effective income tax rates, its business strategy, its financial plans, its future financial performance, its projected business results or model, its ability to return value to shareholders, its projected capital expenditures, its leverage ratio, its acquisition opportunities, and the impact of future legislation or regulation. Actual events or results may differ materially from those anticipated in these forward-looking statements as a result of a variety of factors. While it is impossible to identify all such factors, factors which could cause actual events or results to differ materially from those estimated by Encompass Health include, but are not limited to, the possibility that the Company may not be able to realize higher values for its home health and hospice business through strategic transactions; the possibility that the Company may decide not to undertake a transaction following the review of strategic alternatives or that it is not able to consummate any proposed transactions resulting from the review due to, among other things, market, regulatory and other factors; the potential for disruption to the Company's business resulting from the review of strategic alternatives or the undertaking of any transactions following the review; any potential adverse effects of the Company's stock price resulting from the announcement of the results of the strategic review; the continued spread of COVID-19, including the speed, depth, geographic reach and duration of the spread, which could decrease our patient volumes and revenues and lead to staffing and supply shortages and associated cost increases; actions to be taken by the Company in response to the pandemic; the legal, regulatory and administrative developments that occur at the federal, state and local levels; the Company's infectious disease prevention and control efforts; the demand for the Company's services, including based on any downturns in the economy, consumer confidence, or the capital markets and unemployment among family members; the price of Encompass Health's common stock as it affects the Company's willingness and ability to repurchase shares and the financial and accounting effects of any repurchases; any adverse outcome of various lawsuits, claims, and legal or regulatory proceedings involving Encompass Health, including any matters related to yet undiscovered issues, if any, in acquired operations; Encompass Health's ability to attract and retain key management personnel; any adverse effects on Encompass Health's stock price resulting from the integration of acquired operations; potential disruptions, breaches, or other incidents affecting the proper operation, availability, or security of Encompass Health's or its vendors' information systems, including unauthorized access to or theft of patient, business associate, or other sensitive information or inability to provide patient care because of system unavailability as well as unforeseen issues, if any, related to integration of acquired systems; the ability to successfully integrate acquired operations, including realization of anticipated tax benefits, revenues, and cost savings, minimizing the negative impact on margins arising from the changes in staffing and other operating practices, and avoidance of unforeseen exposure to liabilities; Encompass Health's ability to successfully complete and integrate de novo developments, acquisitions, investments, and joint ventures consistent with its growth strategy; increases in Medicare audit activity, including increased use of sampling and extrapolation, resulting in additional unpaid reimbursement claims and an increase in the backlog of appealed claims denials; changes, delays in (including in connection with resolution of Medicare payment reviews or appeals), or suspension of reimbursement for Encompass Health's services by governmental or private payors; changes in the regulation of the healthcare industry at either or both of the federal and state levels, including as part of national healthcare reform and deficit reduction (such as the Patient-Driven Groupings Model for home health) and Encompass Health's ability to adapt operations to those changes; competitive pressures in the healthcare industry and Encompass Health's response thereto; Encompass Health's ability to obtain and retain favorable arrangements with third-party payors; Encompass Health's ability to control costs, particularly labor and employee benefit costs, including group medical expenses; adverse effects resulting from coverage determinations made by Medicare Administrative Contractors regarding its Medicare reimbursement claims and lengthening delays in Encompass Health's ability to recover improperly denied claims through the administrative appeals process on a timely basis; Encompass Health's ability to adapt to changes in the healthcare delivery system, including value-based purchasing and involvement in coordinated care initiatives or programs that may arise with its referral sources; Encompass Health's ability to attract and retain nurses, therapists, and other healthcare professionals in a highly competitive environment with often severe staffing shortages, which may be worsened by the pandemic, and the impact on Encompass Health's labor expenses from potential union activity and staffing shortages; general conditions in the economy and capital markets, including any instability or uncertainty related to armed conflict or an act of terrorism, governmental impasse over approval of the United States federal budget, an increase in the debt ceiling, or an international sovereign debt crisis; the increase in the costs of defending and insuring against alleged professional liability claims, including claims associated with patient and employee exposures to COVID-19, and Encompass Health's ability to predict the estimated costs related to such claims; and other factors which may be identified from time to time in Encompass Health's SEC filings and other public announcements, including Encompass Health's Form 10-K for the year ended December 31, 2020, when filed.
