

Encompass Health and BJC HealthCare announce plans to build a 40-bed inpatient rehabilitation hospital in Town and Country, Missouri

BIRMINGHAM, Ala., and ST. LOUIS, July 12, 2022 /PRNewswire/ -- Encompass Health Corp. (NYSE: EHC) and BJC HealthCare today announced they have been awarded a certificate of need to build a freestanding, 40-bed inpatient rehabilitation hospital in Town and Country, Missouri. The hospital will be located at the corner of Town and Country Crossing Drive and Woods Mill Road. The hospital, which will be a satellite location of The Rehabilitation Institute of St. Louis, is expected to begin caring for patients in 2024.

When the hospital opens, BJC HealthCare intends to relocate its existing 20-bed rehabilitation unit from Missouri Baptist Medical Center to the new hospital. The hospital will be an expansion of the current joint venture partnership between Encompass Health and BJC HealthCare, which includes three hospitals – [The Rehabilitation Institute of St. Louis](#), [The Rehabilitation Institute of St. Louis located in St. Peters](#), and [The Rehabilitation Institute of Southern Illinois](#).

"Encompass Health and BJC HealthCare have been trusted healthcare partners for more than 20 years, and we are excited to expand our presence to serve even more residents of St. Louis County," said Troy DeDecker, president of Encompass Health's Central Region. "This new hospital will allow us to continue providing high-quality, clinical care for rehabilitation patients throughout Missouri and Southern Illinois."

"Our goal is to minimize time spent in the hospital so our patients can safely return to their daily lives as soon as possible," says Joan Magruder, Group President for BJC HealthCare. "Increasing access to rehabilitation services makes it easier for more patients to safely transition from the hospital to the next stage of their healing process and still receive the expertise and compassion of BJC HealthCare."

Complementing local acute care services, the future hospital will offer physical, occupational, and speech therapies and 24-hour nursing care to restore functional ability and quality of life. The hospital will care for patients recovering from debilitating illnesses and injuries including strokes and other neurological disorders, brain injuries, spinal cord injuries, amputations, and complex orthopedic conditions. The hospital will feature all private patient rooms, a spacious therapy gym with advanced rehabilitation technologies, and an activities of daily living suite, cafeteria, dining room, pharmacy, and therapy courtyard.

About BJC HealthCare

BJC HealthCare is one of the largest nonprofit health care organizations in the United States, delivering services to residents primarily in the greater St. Louis, southern Illinois and southeast Missouri regions. Serving the health care needs of urban, suburban and rural communities, BJC includes 14 hospitals and multiple health service organizations plus a relationship with Encompass Health which provides rehabilitation services throughout the system's service region. Services include inpatient and outpatient care, primary care, community health and wellness, workplace health, home health, community mental health, rehabilitation, long-term care, and hospice. BJC's nationally recognized academic hospitals, Barnes-Jewish and St. Louis Children's hospitals are affiliated with Washington University School of Medicine.
