Encompass Health reports results for second quarter 2022

BIRMINGHAM, Ala., Aug. 1, 2022 /<u>PRNewswire</u>/ -- Encompass Health Corporation (NYSE: EHC), the largest owner and operator of inpatient rehabilitation hospitals in the United States, today reported its results of operations for the second quarter endedJune 30, 2022 and affirmed its 2022 guidance.

"Our second quarter results are further evidence of the strong demand for our inpatient rehabilitation services," said President and Chief Executive Officer of Encompass Health Mark Tarr. "Second quarter discharge growth was 4.9%, on top of 18.7% discharge growth in the second quarter of 2021. While we continue to face near-term staffing challenges, we remain confident in the long-term prospects for our business."

On July 1, 2022, Encompass Health completed the spin off of Enhabit Home Health & Hospice ("Enhabit"), which is now an independent, publicly traded company. Enhabit's second quarter results are required to be in this earnings release, but no commentary on those results is included herein. Beginning with the third quarter of 2022, Enhabit's historical results will be reported in Encompass Health's discontinued operations.

General and administrative expenses, excluding stock-based compensation	\$	28.6	2.1 %	\$	36.8	2.9 %

General and administrative expenses decreased as a percent of consolidated revenue due to improved operating leverage, a decline in the mark-to-market value of the Company's nonqualified 401(k) plan, and lower incentive compensation in Q2 2022.

General and administrative expenses in the above table exclude \$22.9 million and \$4.1 million in costs associated with the strategic alternatives review of the Company's home health and hospice business for the second quarter of 2022 and the second quarter of 2021, respectively.

Revenue - Inpatient revenue growth resulted from increased volumes and pricing. Total discharge growth for the second quarter of 2022 was 4.9% with
same-store growth of 1.6%. Revenue reserves related to bad debt as a percent of revenue increased 50 basis points, primarily attributable to a shift in payor
mix toward non-Medicare payors.

Growth in net patient revenue per discharge of 1.3% primarily resulted from an increase in reimbursement rates, partially offset by the resumption of sequestration.

Outpatient and other revenue was unchanged.

• Adjusted EBITDA - The 11.4% decrease in Adjusted EBITDA primarily resulted from increased utilization and pricing of agency staffing and sign-on and shift bonuses.

Other information

The information in this press release is summarized and should be read in conjunction with the Company's Quarterly Report on Form 10-Q for the quarter ended June 30, 2022 (the "June 2022 Form 10-Q"), when filed, as well as the Company's Current Report on Form 8-K filed on August 1, 2022 (the "Q2 Earnings Form 8-K"), to which this press release is attached as Exhibit 99.1. In addition, the Company will post supplemental information today on its website at http://investor.encompasshealth.com for reference during its August 2, 2022 earnings call.

The financial data contained in the press release and supplemental information include non-GAAP financial measures, including the Company's adjusted earnings per share, leverage ratio, Adjusted EBITDA, and adjusted free cash flow. Reconciliations to their most comparable GAAP measure, except with regard to non-GAAP guidance, are included below or in the Q2 Earnings Form 8-K. Readers are encouraged to review the "Note Regarding Presentation of Non-GAAP Financial Measures" included in the Q2 Earnings Form 8-K which provides further explanation and disclosure regarding the Company's use of these non-GAAP financial measures.

Excluding net operating revenues, the Company does not provide guidance on a GAAP basis because it is unable to predict, with reasonable certainty, the future impact of items that are deemed to be outside the control of the Company or otherwise not indicative of its ongoing operating performance. Such items include government, class action, and related settlements; professional fees—accounting, tax, and legal; mark-to-market adjustments for stock appreciation rights; gains or losses related to hedging instruments; loss on early extinguishment of debt; adjustments to its income tax provision (such as valuation allowance adjustments and settlements); items related to corporate and facility restructurings; and certain other items the Company believes to be not indicative of its ongoing operations. These items cannot be reasonably predicted and will depend on several factors, including industry and market conditions, and could be material to the Company's results computed in accordance with GAAP.

However, the following reasonably estimable GAAP measures for 2022 would be included in a reconciliation for Adjusted EBITDA if the other reconciling GAAP measures could be reasonably predicted:

- Interest expense and amortization of debt discounts and fees estimate of \$160 million to \$170 million
- Amortization of debt-related items approximately \$10 million

The Q2 Earnings Form 8-K and, when filed, the June 2022 Form 10-Q can be found on the Company's website at http://investor.encompasshealth.com and the SEC's website at www.sec.gov.

Encompass Health Corporation and Subsidiaries Forward-Looking Statements

Statements contained in this press release and the supplemental information which are not historical facts, such as those relating to the spin off of the home health and hospice business and its impact on the business model, outlook and guidance, the nature of the COVID-19 pandemic and its impact on Encompass Health's business and financial assumptions, legislative and regulatory developments, financial guidance, development projects, balance sheet and cash flow plans, are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. In addition, Encompass Health, through its senior management, may from time to time make forward-looking public statements concerning the matters described herein. All such estimates, projections, and forward-looking information speak only as of the date hereof, and Encompass Health undertakes no duty to publicly update or revise such forward-looking

information, whether as a result of new information, future events, or otherwise. Such forward-looking statements are necessarily estimates based upon current information, involve a number of risks and uncertainties, and relate to, among other things, future events, Encompass Health's plan to repurchase its debt or equity securities, dividend strategies, effective income tax rates, its business strategy, its financial plans, its future financial performance, its projected business results or model, its ability to return value to shareholders, its projected capital expenditures, its leverage ratio, its acquisition opportunities, and the impact of future legislation or regulation. Actual events or results may differ materially from those anticipated in these forward-looking statements as a result of a variety of factors. While it is impossible to identify all such factors, factors which could cause actual events or results to differ materially from those estimated by Encompass Health include, but are not limited to, the continued spread of COVID-19, including the speed, depth, geographic reach and duration of the spread, which could decrease our patient volumes and revenues and lead to staffing and supply shortages and associated cost increases; actions to be taken by the Company in response to the pandemic; the legal, regulatory and administrative developments that occur at the federal, state and local levels; Encompass Health's infectious disease prevention and control efforts; the demand for Encompass Health's services, including based on any downturns in the economy, consumer confidence, or the capital markets and unemployment among family members; the price of Encompass Health's common stock as it affects Encompass Health's willingness and ability to repurchase shares and the financial and accounting effects of any repurchases; any adverse outcome of various lawsuits, claims, and legal or regulatory proceedings involving Encompass Health, including any matters related to yet undiscovered issues, if any, in acquired operations; Encompass Health's ability to attract and retain key management personnel; any adverse effects on Encompass Health's stock price resulting from the integration of acquired operations; potential disruptions, breaches, or other incidents affecting the proper operation, availability, or security of Encompass Health's or its vendors' information systems, including unauthorized access to or theft of patient, business associate, or other sensitive information or inability to provide patient care because of system unavailability as well as unforeseen issues, if any, related to integration of acquired systems; the ability to successfully integrate acquired operations, including realization of anticipated tax benefits, revenues, and cost savings, minimizing the negative impact on margins arising from the changes in staffing and other operating practices, and avoidance of unforeseen exposure to liabilities; Encompass Health's ability to successfully complete and integrate de novo developments, acquisitions, investments, and joint ventures consistent with its growth strategy; increases in Medicare audit activity, including increased use of sampling and extrapolation, resulting in additional unpaid reimbursement claims and an increase in the backlog of appealed claims denials; changes, delays in (including in connection with resolution of Medicare payment reviews or appeals), or suspension of reimbursement for Encompass Health's services by governmental or private payors; changes in the regulation of the healthcare industry at either or both of the federal and state levels, including as part of national healthcare reform and deficit reduction and Encompass Health's ability to adapt operations to those changes; competitive pressures in the healthcare industry and Encompass Health's response thereto; Encompass Health's ability to obtain and retain favorable arrangements with third-party payors; Encompass Health's ability to control costs, particularly labor and employee benefit costs, including group medical expenses; adverse effects resulting from coverage determinations made by Medicare Administrative Contractors regarding its Medicare reimbursement claims and lengthening delays in Encompass Health's ability to recover improperly denied claims through the administrative appeals process on a timely basis; Encompass Health's ability to adapt to changes in the healthcare delivery system, including value-based purchasing and involvement in coordinated care initiatives or programs that may arise with its referral sources; Encompass Health's ability to attract and retain nurses, therapists, and other healthcare professionals in a highly competitive environment with often severe staffing shortages, which may be worsened by the pandemic, and the impact on Encompass Health's labor expenses from potential union activity, staffing shortages, and competitive compensation practices; general conditions in the economy and capital markets, including any instability or uncertainty related to armed conflict or an act of terrorism, governmental impasse over approval of the United States federal budget, an increase in the debt ceiling, or an international sovereign debt crisis; the increase in the costs of defending and insuring against alleged professional liability claims, including claims associated with patient and employee exposures to COVID-19, and Encompass Health's ability to predict the estimated costs related to such claims; and other factors which may be identified from time to time in Encompass Health's SEC filings and other public announcements, including Encompass Health's Form 10-K for the year ended December 31, 2021 and Form 10-Q for the quarters ended March 31, 2022 and June 30, 2022, when filed.
